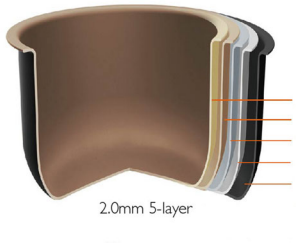
- Integrated steamer and plate

Technical specifications
- Voltage: 220 V
- Frequency: 50 Hz
- Wattage: 860 W
- Cord length: 1.0 m
- Inner pot capacity: 4L

Highlights

6-phase smart cooking program
6-phase rice cooking program adjusts heating temperature based on cooking phase: 60-70° continuous heating allows rice to absorb the optimum amount of water; 100° high-temperature boiling heats rice thoroughly; high-power continuous boiling stimulates nutrient transformation; high-temperature gelatinization causes rice to expand and soften; 85° boiling removes excess water for fluffy, al dente rice; keeping warm feature locks in freshness.

2.0 mm 5-layer inner pot



2.0 mm 5-layer inner pot is good for even heat conduction. Ingenious, industry-leading, exquisitely crafted 5-layer gold inner pot. 1. Hard crystal coating: durable and easy-to-clean. 2. Gold heat-collecting base: accumulates heat, greatly increasing inner pot heating results. 3. Extra-thick alloy container: conducts heat evenly. 4. Resin protection film: marks the ally container more durable. 5. Black, scratch-resistant insulating coating: stores energy and keeps the pot warm, locking heat in for long periods of time.

9 programs
9 programs including refined cooking, high-speed cooking, small portions, congee, soup, steaming, clay pot rice, reheating for great rice, congee, soup and clay pot rice and easy to clean helps deal with food remains easily.

Easy to clean program
20 minutes' inner steam circulation provides thorough and hassle-free cleaning.

24-hour preset timer

Prepare a nutritious breakfast the night before, or great rice for dinner before you leave for work. Accurately set completion times by pressing the 'hour' button to adjust in increments of 1 hour and the 'minute' button to adjust in increments of 10 minutes.
